**Attention: Wendy Shanks, Chair**

**Re: Utilities Consumers' Group Intervener Registration  
for Yukon Energy Corporation 2008-09 GRA**

Dear Ms. Shanks:

Pursuant to Board Order 2008-15, the Utilities Consumers' Group ("UCG") would like to formally register as an intervener in the General Rate Application filed by the YEC.

The nature of our representation is to protect the interests of residential and small business consumers of electricity, the largest ratepayer group in these proceedings. UCG has been the only consistent representative of this group for the last number of rate and capital hearings.

With the economic climate these days, it is becoming more difficult for many low and set income families to access affordable energy to light and heat their homes. At the same time energy providers are applying for increased revenues to secure their profit margins. Without interventions, the status quo prevails.

Should you have any questions, please do not hesitate to contact me.

Yours truly,

Roger Rondeau
